

## Who We Are

Established in 1966, the BC Road Builders and Heavy Construction Association (BCRB&HCA) is a non-profit organization representing more than 290 firms in the BC road building and maintenance industry. Operating in communities across BC, our association is committed to advocating for infrastructure development and a balanced, safe, transportation system that sustains and promotes economic growth.

The BCRB&HCA communicates with both the public and government on critical issues. Our 290+ member companies represent highway maintenance contractors, construction contractors, underground/utility contractors and paving contractors, along with various service and supply companies. The BCRB&HCA brings the industry together through advocacy, discussion, and networking to maximize business opportunities and celebrate our successes together.
